SUMMARY

Aspiring Full Stack Developer and Computer Science and Engineering student at VIT Bhopal with a strong command of front-end development, Git, MySQL, DevOPs, and data structures. A passionate tech enthusiast seeking a full-time position to contribute to innovative software development projects and leverage skills in web technologies.

EDUCATION

BTech in Computer Science and Engineering

VIT Bhopal University

Graduating May 2027

8.2 CGPA

TECHNICAL SKILLS

Languages and DataBases: Python, Java, C++, MySQL, PostgreSQL

Web Development: Html , Css3 , JavaScript, React.js, Node.js, DevOPs

Other Skills: Data Structures , Git, GitHub, Unity3D, GenAI

Certification: IIITD Certified in **Human-Computer Interaction** (NPTEL) – May 2025

PROFESSIONAL EXPERIENCE

CodVeda Technologies - Front End Development Intern

Apr 2025 – May 2025

- Developed and maintained responsive user interfaces using HTML, CSS, and modern JavaScript, enhancing user experience and cross-browser compatibility.
- Collaborated within an Agile development team to implement front-end components for new web application features, contributing to project milestones.

ACADEMIC PROJECTS

PaisaWise [LINK](#)

Personal Expense Tracker .

- Engineered and deployed a privacy-first, minimalist expense tracker using React, Vite, and Tailwind CSS to deliver a fast, intuitive, and responsive user interface.
- Developed a client-side data solution using browser local storage, featuring a quick-add form and an interactive pie chart for instant financial analysis, ensuring user data never leaves the device.

IntelliChem [LINK](#)

3D Chemistry Quiz Game .

- Developed an interactive 3D chemistry quiz game using Unity and C#, implementing particle systems and animation tools to simulate realistic chemical reactions.
- Designed an immersive, gamified learning experience with real-time feedback to enhance student engagement and make complex chemistry concepts more accessible.

DarkBound : Nowhere to Run

Horror Survival Game .

- Engineered a horror survival game in Unity using C#, integrating Blender for 3D assets, NavMesh for dynamic AI, and Cinemachine for advanced camera control.
- Created an immersive, narrative-driven experience with custom lighting effects and an audio manager to explore psychological resilience through interactive storytelling.

ACTIVITIES

E-CELL , VIT BHOPAL UNIVERSITY

Feb 2024 – Dec 2024

Social Media Coordinator

- Executed social media strategies that boosted follower engagement by 35% over a three-month period, managing campaign content and performance analytics.
- Partnered with cross-functional teams (event, design, content) to execute promotional campaigns for workshops and campus events, significantly increasing online visibility and community outreach.
