SUMMARY

Aspiring Full Stack Developer and Computer Science and Engineering student at VIT Bhopal with a strong command of front-end development, Git, DevOPs, and data structures. A passionate tech enthusiast seeking a full-time position to contribute to innovative software development projects and leverage skills in web technologies.

EDUCATION

BTech in Computer Science and Engineering
VIT Bhopal University

Graduating May 2027
8.2 CGPA

TECHNICAL SKILLS

Languages: Python, Java , C++,

Web Development : HTML5, CSS3, JavaScript, React.js

Skills: Data Structures & Algorithms, Generative AI, Human-Computer Interaction (HCI)

DevOps: Git, GitHub, Docker

Databases: MySQL, MongoDB

Developer Tools: Unity3D, VS Code

Certification: IIITD Certified in **Human-Computer Interaction** (NPTEL) – May 2025

PROFESSIONAL EXPERIENCE

CodVeda Technologies, Front End Development Intern

Mar 2025 – May 2025

- Developed and maintained responsive user interfaces using HTML, CSS, and modern JavaScript, Redesigned key UI components, leading to a 15% reduction in user-reported navigation issues
- Collaborated within an Agile development team to implement front-end components for new web application features, contributing to project milestones.

ACADEMIC PROJECTS

PaisaWise.io : Personal Expense Tracker

Engineered a client-side solution capable of handling over 1,000 transactions with instant analysis

- Engineered and deployed a privacy-first, minimalist expense tracker using React, Vite, and Tailwind CSS to deliver a fast, intuitive, and responsive user interface.
- Developed a client-side data solution using browser local storage, featuring a quick-add form and an interactive pie chart for instant financial analysis, ensuring user data never leaves the device.

IntelliChem

3D Chemistry Quiz Game .

- Developed an interactive 3D chemistry quiz game using Unity and C#, implementing particle systems and animation tools to simulate realistic chemical reactions.
- Designed an immersive, gamified learning experience with real-time feedback to enhance student engagement and make complex chemistry concepts more accessible.

DarkBound : Nowhere to Run

Horror Survival Game .

- Engineered a horror survival game in Unity using C#, integrating Blender for 3D assets, NavMesh for dynamic AI, and Cinemachine for advanced camera control.
- Created an immersive, narrative-driven experience with custom lighting effects and an audio manager to explore psychological resilience through interactive storytelling.

ACTIVITIES

E-CELL , VIT BHOPAL UNIVERSITY

Feb 2024 – Dec 2024

Social Media Coordinator

- Drove a 35% increase in follower engagement over three months by executing social media strategies and collaborating with cross-functional teams on promotional campaigns for campus events, enhancing online visibility.
