EDUCATION

VIT BHOPAL UNIVERSITY

BTech in Computer Science and Engineering

Bhopal, Madhya Pradesh

2023-2027

Cumulative GPA: 8.33/10

TECHNICAL SKILLS

Programming Languages: Python, Java, C++

Web and Backend: HTML5, CSS3, JavaScript, React.js, Node.js

Tools & Platforms: Git, Firebase, VS Code

Database: MySQL, PostgreSQL

Cloud & DevOps: AWS (EC2, S3, IAM), Git, CI/CD Basics

Machine Learning & Artificial Intelligence: TensorFlow, CNNs, Model

Training & Evaluation

Data Analytics & Visualization: Pandas, NumPy, EDA, Data Visualization

EXPERIENCE

Legalman Multicon Private Limited (Digital Vakil)

Data & AI Intern

Bengaluru, India

May 2026 – Jun 2026

- Analyzed and structured **real-world financial** and compliance datasets to support **income tax filing** and business registration workflows, improving **operational efficiency**.
- Applied **data-driven** and **AI-assisted** approaches to streamline processes, collaborating with teams to translate business requirements into practical, **scalable solutions**.

PROJECTS

Scout IQ [Link](#)

June 2026 - July 2026

Intelligent Football Talent Discovery & Scouting Platform

- Engineered a full-stack football scouting platform using **Next.js, React, TypeScript, Tailwind CSS, Prisma ORM, PostgreSQL, JWT, Google OAuth, and REST APIs** to help clubs identify, evaluate, and compare emerging football talent through AI-assisted insights and performance analytics.
- Developed **secure authentication**, interactive player dashboards, semantic search, advanced filtering, and **scouting reports** to support data-driven recruitment while addressing the need to discover and nurture promising Indian football talent for the national stage.

SalesSight AI [Link](#)

Mar 2026 - May 2026

AI-Powered Sales Forecasting & Business Intelligence Platform

- Engineered a **full-stack analytics platform** using **Next.js, FastAPI, Pandas, NumPy, Meta Prophet, and Gemini AI** to automate **sales forecasting, KPI analysis, and AI-driven business insights**.
- Developed **REST APIs** to process **sales datasets**, generate interactive dashboards with **Recharts**, perform timeseries forecasting, and deliver **AI-powered recommendations** through a **responsive web application**.

Semantic Search System with Fuzzy Clustering & Semantic Cache [Link](#)

Nov 2025 - Jan 2026

NLP, Transformers, FAISS, FastAPI, Python

- Engineered a semantic search engine using **Transformer embeddings, FAISS, and FastAPI** for **fast, scalable, and context-aware document retrieval**.
- Integrated GMM-based fuzzy clustering and semantic caching to improve **multi-topic relevance** and **optimize search performance** on the **20K+ document dataset**.

CERTIFICATIONS & ACHIEVEMENTS

NPTEL HCI (IIT Delhi) : 94% score; strong foundation in user-centered design.

Founder & Vice President : Agentic Intelligence Society, VIT Bhopal.

SIH 2025 (Internal) : Led two teams; **Top 75/1000+** submissions.

AWS Technical Essentials (Certified).

Apoorv CTF 2024 : AIR 161.
