PROFESSIONAL SUMMARY

Computer Science undergraduate (BTech, VIT Bhopal, GPA 8.33/10) specializing in full-stack development and applied machine learning. Builds production-grade platforms with React.js, Next.js, and FastAPI, and applies AI/ML techniques to real-world data problems. Founder of a university technical society; seeking Software Engineering / Data & AI roles.

TECHNICAL SKILLS

Programming Languages: Python, Java

Web & Backend Development: HTML5, CSS3, JavaScript, React.js, Node.js, Next.js

Databases: MySQL, PostgreSQL

Cloud & DevOps: AWS (EC2, S3, IAM), Git, CI/CD Basics

Machine Learning & AI: TensorFlow, CNNs, Model Training & Evaluation

Data Analytics & Visualization: Pandas, NumPy, Exploratory Data Analysis (EDA), Data Visualization

EXPERIENCE

Legalman Multicon Private Limited (Digital Vakil)

Bengaluru, India (Remote)

Data & AI Intern

Apr 2026 – Jun 2026

- Remotely analyzed and structured real-world financial and compliance datasets to support income tax filing and business registration workflows spanning multiple client accounts, directly improving data processing efficiency.
- Applied data-driven and AI-assisted approaches to streamline internal processes, partnering cross-functionally with product and operations teams based in Bengaluru to translate business requirements into scalable, production-ready solutions.

PROJECTS

Scout IQ — Intelligent Football Talent Discovery & Scouting Platform

Jun 2026 – Jul 2026

Next.js, React, TypeScript, Tailwind CSS, Prisma ORM, PostgreSQL, JWT, Google OAuth, REST APIs | github.com/dhruvt293/ScoutIQ

- Built and led development of a full-stack football scouting platform spanning authentication, dashboards, and analytics, enabling clubs to identify, evaluate, and compare emerging talent through AI-assisted insights.
- Implemented secure JWT/OAuth authentication, interactive player dashboards, semantic search, and advanced multi-criteria filtering to support data-driven recruitment of promising Indian football talent.

SalesSight AI — AI-Powered Sales Forecasting & Business Intelligence Platform

Mar 2026 – May 2026

Next.js, FastAPI, Pandas, NumPy, Meta Prophet, Gemini AI, Recharts | github.com/dhruvt293/SalesSight-AI

- Developed an end-to-end analytics platform automating sales forecasting, KPI analysis, and AI-driven business insights using Meta Prophet and Gemini AI across multiple product lines.
- Designed and implemented REST APIs to process sales datasets and deliver interactive Recharts dashboards with time-series forecasting and AI-generated recommendations for business stakeholders.

CatchYourShow — Real-Time Concurrency-Safe Event Ticketing Platform

Aug 2026

React, Vite, Node.js, Express, Prisma ORM, SQLite, JWT, Node-cron | github.com/dhruvt293/CatchYourShow

- Engineered a concurrency-safe ticketing platform preventing seat double-booking through atomic database transactions and a TTL-based seat hold system with automatic release on checkout abandonment.
- Built a FIFO waitlist system with automated, time-limited offer reassignment via background cron jobs, and implemented secure QR-based mobile ticket verification for real-time booking authentication.

Heart Disease Prediction using Random Forest Classification

Jul 2026 – Aug 2026

Python, Pandas, scikit-learn, Flask, Joblib, Gunicorn | github.com/dhruvt293/Heart-Disease-Prediction

- Built and deployed a Random Forest classification model to predict heart disease risk from clinical parameters, achieving 98.54% test accuracy.
- Developed a Flask REST API with a responsive frontend and deployed it as a live web service on Render, enabling real-time predictions from user-submitted patient data.

CERTIFICATIONS & ACHIEVEMENTS

- AWS Certified Solutions Architect – Associate: Certified in designing secure, scalable, fault-tolerant, and cost-optimized architectures on AWS.
- NPTEL HCI (IIT Delhi): Scored 94%; built a strong foundation in user-centered design.
- Founder & Vice President, Agentic Intelligence Society, VIT Bhopal.
- Smart India Hackathon (SIH) 2025 (Internal): Led two teams; ranked in Top 75 of 1000+ submissions.
- Apoorv CTF 2024: All India Rank 161.

EDUCATION

Vellore Institute of Technology — BTech in Computer Science and Engineering

2023 – 2027

Bhopal, Madhya Pradesh, India | Cumulative GPA: 8.33 / 10
